AUTO WEDDING

From the Brilliant Pen of Editor
Tom Underwood.

Says Ed. Tom Underwood in a recent issue of the High Pressure New Era:

The wedding of Miss Mary Canline and Mr. M. F. Stuber, baker was pretty well attended at the First Presbyterian church last Wednesday evening. The ceremony was performed by the minister, who read the solemn and beautiful words of the Bible. The bride was in a gown of white tulle and lace, and the groom was in a suit of dark cloth. The wedding cake was a masterpiece of confectionery, and the reception was a most enjoyable affair. The bride and groom were surrounded by their friends and relatives, and the evening was spent in a most pleasant manner. The wedding was a most successful one, and the bride and groom were most happy.

WILL ENGLAND ENFRANCHISE HER WOMEN BEFORE AMERICA DOES?

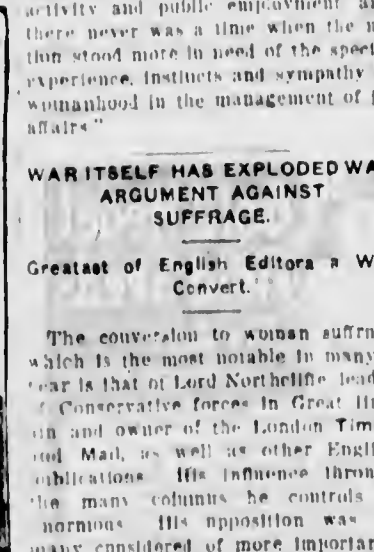

WHY PREMIER GEORGE
IS FOR SUFFRAGE

Nation Needs Woman's Experience in Management of Its Affairs.

“I have long been a convinced advocate of woman suffrage and am no warmer than ever in supporting it. It seems to me a necessary and desirable consequence of the vast extension of the functions of government which the last century and a half has witnessed. No franchise bill can ever again be brought forward in this country without raising the whole problem of whether you are going to exclude more than half the citizens of the land. Women have entered pretty nearly every sphere of com-

ed traits, traits which are the logical result of her care for her children. It would seem that there must also be evolved within her a good fundamental reaction against the harshness of man. This harshness, this pugnacity, this greed for kill was put into man through evolution and it cannot be mitigated a

through further evolution. Perhaps of the influences in this further evolution will be woman's natural reaction against needless violence."

(George W. Cline, in "A Mechanical View of War and Peace")

We Believe
That "governments derive their just powers from the consent of the governed."

We Believe
That a democracy is "a government of the people, by the people and for the people."

We Believe
That women are people and are governed.

We Believe
That no state can be a true democracy in which one-half people are denied the right to vote.

We Believe
That women need the vote for the same reason that men need it.

We Believe
That because laws regulate a woman's life, tax her property may even sentence her to death, she should have the right to share in the making of the laws.

We Believe
That democracy bids everyone stand up and be counted, that on Election Day no one should be counted for less than one.

If you believe this, join the Votes for Women Movement.

PRESIDENT WILSON SAYS WOMAN SUFFRAGE IS A QUESTION OF LIFE ITSELF.

"Its growth has gone on not because women are discontented. It is because women have seen the vision of duty. And that is something which we not only can't resist, but if we be true Americans, we do not wish to resist. We have to realize in dealing with a force of this sort is that we are dealing with a question of life itself."

WOMAN
SUFFRAGE
IS
COMING
in 1917

President Jacob Gould Schurman, of Cornell University, views the struggle for women suffrage in the Eastern States, as "a battle already won." Dr. Schurman says:

"The women of the East will not be content to remain permanently disfranchised while their sisters in the suffrage states of the West have it in their power to elect the president and members of Congress, and so shape the policies of the Government of the United States. I do not mean that the old arguments in favor of woman suffrage have lost any of their force. I recognize their validity today as I have accepted them for many years past. But the recent national election has brought out in a more striking way than ever before the practical circumstance that the Nation cannot remain permanently divided, with one half of its women enfranchised and the other half disfranchised. The recent national election has given this circumstance a unique and impressive setting. And the cause of woman suffrage has gained such a tremendous momentum that unless I am entirely incorrect in my forecast the suffrage will be granted to women in all the states of the Union in the course of the next few years."

Chicago women voted in almost the same proportion as men at the last election. 86.5 per cent. of the men who registered voted and 85.2 per cent. of the women.

It looks as if Tennessee would be the first Southern State to get into the suffrage column. Its bill for presidential suffrage passed the House of Representatives in January. But the whole South is well to the fore in the race to enfranchise women. Bills for presidential suffrage, modeled after the Illinois equal suffrage statute, will be introduced in the legislatures of twelve southern states. In their light for the suffrage Southern women have brought forward some eye-opening figures with regard to southern population. For instance: In four southern states, Texas, Tennessee, Virginia and Kentucky, the number of white women exceeds the whole colored population. In Alabama, Arkansas, Georgia, North Carolina and Louisiana, woman suffrage would tremendously increase the preponderance of white votes; in Mississippi and South Carolina, where the colored population exceeds the white, equal suffrage would double the educated electorate.

Contrary to expectation, the increase of white population is more rapid than the increase of colored population.

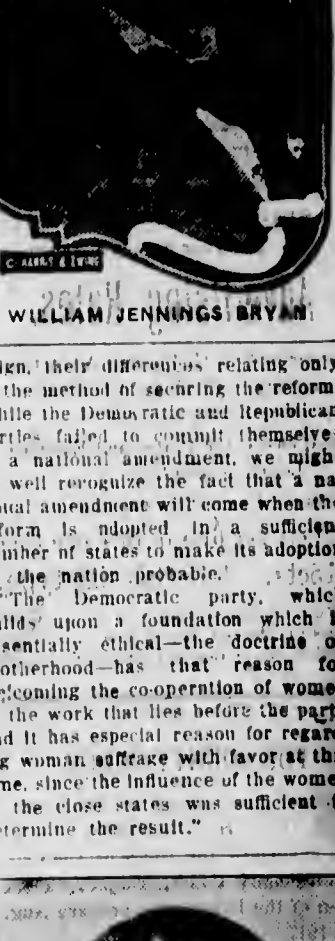

The official estimates of population for 1916, published by the Bureau of the Census, show that the white population in twelve southern states has increased 10.8 per cent. in the last seven years. While the negro population has increased only 5.6 per cent.

\$100,000.00 Bond Issue For Constructing Roads and Bridges in This County

Order calling for an election in Crittenden County, Kentucky, on the question of issuing bonds for the purpose of building and reconstructing roads and bridges.

Crittenden County Court, Regular Term, Feb. 12, 1917.

Hon. John G. Asher, P. J.

Whereas, on the 8th day of January, 1917, a petition was lodged and filed with this Court, as appears of record on the Order Book thereof, and,

Whereas said petition asks that this Court call an election to be held in Crittenden County, Kentucky, for the purpose of testing the sense of the voters of Crittenden County as to whether, or not, the Fiscal Court of said county shall have power and authority to issue and sell bonds from time to time in sums not to exceed One Hundred Thousand Dollars, (\$100,000.00) in the aggregate for the purpose of building, constructing and reconstructing public roads and bridges in Crittenden County, and

WHEREAS, said petition was ordered to lie over until this date for action of this Court, and

WHEREAS, the court finds that the value of the taxable property of Crittenden County, including railroad, according to the last assessment roll, is approximately \$3,800,000.00, and, from proof heard, the court finds that to be a fair valuation of said property, and that 5 percent thereof will exceed the sum of the proposed One Hundred Thousand and Dollar, (\$100,000.00) bond issue, and

WHEREAS, the said petition having been examined by the Court, the Court finds and adjudges that it is in proper form, and from his own knowledge and from proof heard, the Court finds and adjudges that same is signed by not less than 150 legal voters, who are freeholders and residents of Crittenden County.

Now Then, said petition is ordered filed, and it is filed, and it is further ordered and directed

A Strong Man.

Dr. J. D. Threlkeld, a well-known retired physician of Crittenden county, has become a candidate for the Democratic nomination for Representative in the Crittenden-Livingston district. It is hardly probable that he will have any opposition for the nomination, as he is regarded as one of the strongest Democrats the party could put up, and it takes that kind of candidate to beat the Republicans in that district, which usually

sends a Republican to the Legislature. Dr. Threlkeld has gone to Orlahoma to visit relatives and on his return promises to make a most active canvass, if given the nomination to carry the party banner to victory and redeem the district.—Louisville Times.

Cold Sores and Fever Blisters

are only outward manifestations of the inflammation of the mucous surface that lines the lungs, the stomach and all the digestive tract, but they give you evidence of how sore a membrane may become as a result of inflammation, which is stagnation of the blood, rightfully called acute catarrh.

If you suffer from such conditions don't let them become chronic, don't run the risk of systemic catarrh.

Clear it Up With PERUNA

Times when I can scarcely afford to do without Peruna, especially during the winter when coughs and colds are prevalent. We always recommend Peruna for the benefit it has been to us."

FORD'S FERRY

Owing to unfavorable weather con-
ditions there has been practically no
winter plowing in this neighborhood
during the past two months. This is
somewhat of a disappointment to some
of our enterprising farmers, who ad-
here to the theory that land broken up
in the winter will retain its moisture
better, withstand drought easier and
yield a larger crop than the land which
is broken up in the spring.

Will Alvis went to Marion Saturday.

Miss Glenna Rankin is at present vis-
iting her grandparents, Mr. and Mrs.
W. B. Wilborn, of Ford's Ferry.

Charley James and Miss Annie Brew-
er were united in marriage last Wed-
nesday by Rev. Rufus Robinson. The
wedding was somewhat unexpected
even among their closest and most in-
timate friends, notwithstanding the
fact that they have been sweethearts
for over a year and have been per-
sonally acquainted with each other for a
much longer period. The bride is a
pleasant natured little lady with a con-
genial disposition, and the groom is a
sturdy young farmer who has been
living in this neighborhood for over
ten years. The young couple have
to get a number of friends who wish
them much happiness and prosperity
during their voyage through life.

Herman Clift went to Marion Friday.
Nolan Brewer has recently returned
from Paducah, where he spent
nearly a month in the hospital as a
result of some injuries he received while
working on a tow-boat. Nolan still
retains an optimistic attitude and hopes
that he will soon be as well and strong
as ever.

Walter Hughes was in Ford's Ferry
Saturday.

A citizen of this town was recently
discussing the German-American situ-
ation, and during his conversation he
expressed his belief that there was
little real danger of actual hostilities
between this country and Germany.
He declared that the Teutonic empire
was so utterly exhausted in resources
and so completely incapacitated by the
terrible conflict which has been raging
in Europe that she is in no position to
fight the United States. He also con-
fidently predicted that the German sub-
marine campaign against England
would prove to be a failure, and that
the final, inevitable collapse of the
Teutonic cause was only a matter of
time.

BLACKFORD

March 1st 1917

This day is the beginning of the
windy month and doubtless the readers
of the Record-Press may expect a
"wind-jamming" episode from Black-
ford, therefore, we shall endeavor to
chronicle the best that we have in our
vocabulary at this date.

Since our last report of the event
which have occurred in this part
of the world, there have been two con-
sistencies noted. One Feb. 7th, Mrs.
Zilla Hazel Brantley, a sprightly
young widow, and John Phillips were
married, and on Feb. 13th, (the un-
lucky day) Miss Della Scott and Fin-
can Phelps were mated according to
law.

Also, during the period of time called
February, a number of the public
schools have completed their terms.
The school at Applegate, taught by
Elsie Travis, was out on Thursday,
Feb. 15th; the school at Hoods Creek,
taught by Miss Edith Davis, on Friday,
Feb. 16th; and Prospect school, taught
by Miss Mary Crowell, closed on Tues-
day, Feb. 13th. The schools at
Blackford are yet in
session.

Re. Roscoe C. Babb.
President of "Eureka Club"
No. 1, was among the Blackforders at
a recent date. Come again friend
Brightman, your jovial disposition
brightens our prospects for "better or
worse."

Our townsman, J. A. Oakley, who is
one of our leading merchants and also
superintendent of the Sunday School
at the Methodist church, seems to be
as genial as if fresh from a "juniper"
tree. The mud, changeable weather
and other hindrances do not obscure
his "jollification."

Dr. B. H. Price, a respected physi-
cian and pioneer practitioner, died at
his home on Morgan and First streets,
Wednesday, Feb. 21st, about 8 o'clock
a. m., after an illness of short dura-
tion, of neurasthenia with cardiac di-
sturbance complicated.

Three Marionites, V. O. Chandler,
deputy sheriff of old Crittenden, Clark
Bowls, proprietor of the Crittenden
Hotel and H. V. Stone, who has a
branch mercantile establishment at
this place, were here last week parun-
bulating around for some purpose we
do not know what. Also, on the same
day, Henry Blythe and J. K. Tosh, of
Clay, were here, which caused some
of the Blackforders to look somewhat
"fastidious."

We observed in a recent item from
Seven Springs where the correspond-
ent, in referring to a paragraph in an
item from this place relative to the
schools not being what they could and
should be, reciprocates in a very hero-
ic manner the true sentiments of one
who has the welfare of the rising gen-
eration at heart. From the spirit and
drift of the ideas expressed in said
item we infer the writer is sincere and
the contents original. In the item re-
ferred to by said correspondent, we
merely mentioned the dilemma into
which our public schools are drifting,
and the mild rapier was given with
kind thoughts and sincere wishes for
all parties concerned with hope that,
at no distant period, we may see a re-
turn to normal conditions, and in the
meanwhile the teachers

of our public schools may realize
more fully that the requirements of a
school teacher are great, and are not
performed by holding a certificate and
"killing" time at a school house, re-
gardless of the manifested in the
school and the improvement among the
pupils. We readily concur with the
statement of said correspondent—
"much money is being paid out for the
benefit of our schools and why not be-
lieve it?"—and can suggest no bet-
ter course for the present, than for
the patrons of each district to elect
wide-awake men for trustees, the
trustees secure the services of ener-
getic teachers, and then by fair way-
and means to promote and main-
tain a high standard of each of the ad-
vanced subjects that are necessary
to prepare a successful school. The
welfare of the community and the
teachers alike depend on this. It is
told. Disasters of this kind are
losses of public property and are
not to be taken lightly. It is
the duty of the community to see
that the schools are properly
maintained and that the teachers
are properly paid. It is the duty
of the community to see that the
schools are properly maintained
and that the teachers are properly
paid. It is the duty of the com-
munity to see that the schools are
properly maintained and that the
teachers are properly paid.
